LANDFIRE at 10 Years
Listening, Evolving, Improving, Serving

LANDFIRE National V1.0.0

- All lands, national coverage
- Free, available online for download
- 20+ 30 meter spatial data layers
- Regional or national level application scale
- Transparent
- Repeatable
- Scientifically based

LANDFIRE 2001 V1.0.5

- Improvements to LANDFIRE National
- Filled gaps along international borders
- Modified Western BpS layers using new SSURGO data
- Modified the extent of wetlands and riparian areas, barren and water classes

LANDFIRE 2008 V1.1.0

- Updates to V1.0.5 for landscape change from 2001 - 2008
- Incorporated known treatments and disturbances
- Used remote sensing to locate more landscape change
- Added burnable AG and Urban classes

LANDFIRE 2010 V 1.2.0

- Updates to V1.0.5 for landscape change from 2001 – 2010
- Refined AG classes using NASS crop data
- Refined wetlands using NWI
- Continued refinement of AG burnable classes

LANDFIRE 2012 V1.3.0

- Updates to V1.0.5 for landscape change from 2001 – 2012
- Incremental delivery beginning in the Central States Summer 2014
- Continued incorporation of new and better supporting data sets
- Responding to user feedback and requests
