

# Municipal Shellfish Restoration Opportunities

## Municipal Activity

- Active
- Not Active
- N/A (not enough information to determine)

Towns were considered Active if the following was true:

1. Town has constable or other personnel responsible for shellfish
2. Active shellfish growing is occurring
3. Expressed interest in either enhancement or restoration in interview

### Data Sources:

The Nature Conservancy, 2011. Based on interviews with shellfish constables, harbor masters, or other individuals responsible for shellfish regulation.

Hydrography: TNC NHD Plus (showing rivers of TNC size class 2 and greater)
