

Megan Dettenmaier, TNC LANDFIRE Communications Lead,
meg.dettenmaier@tnc.org

I'm Megan Dettenmaier and I'm a science communicator. I have found a niche distilling and delivering the best available science to the people that need it most. My best day involves bridging the gap between technically minded academics and practitioners in the field. As the Communications Lead for the LANDFIRE team, I can be found with a cup of coffee (always), writing, producing, investigating, and connecting with LANDFIRE patrons. I help my team deliver the best user-focused products including national geospatial layers, databases, and ecological models that facilitate natural resource stewardship and management. I am pleased to be part of such a dynamic and talented group at The Nature Conservancy.
